INTRODUCTION

Caught in the heart of a nuclear explosion, a victim of gamma radiation gone wild, Doctor Bruce Banner now finds himself transformed in times of stress into one thousand pounds of unfettered fury—the most powerful creature ever to walk the earth—the Incredible Hulk™!

But this green-skinned Goliath finds himself facing a multitude of foes all out to deny him the solitude he so desperately craves. He not only battles the forces of the U.S. Army, commanded by General "Thunderbolt" Ross™, but also strange and powerful adversaries such as the Executioner™, Tyrannus™, and the sinister Leader's™ Humanoids.

Now YOU must guide the Hulk™, smashing your way through military compounds, barren deserts, subterranean cities, underground caves, and even earth's distant future in order to escape from the never-ending conflict...until finally, you face off with the most lethal creation of gamma radiation, the evil Abomination™!

CAST OF CHARACTERS

THE HULK

Supervising the trial of an experimental gamma bomb, Dr. Robert Bruce Banner

selflessly rushed to the rescue of an ignorant teenager who had wandered onto the testing field. Banner was struck full-force by the bomb blast and irradiated by the deadly gamma energy. Now under moments of extreme stress Banner turns into seven feet and one thousand pounds of rage and fury—the most powerful creature ever to walk the earth—the Incredible Hulk™!

GENERAL THADDEUS "THUNDERBOLT" ROSS™

This highly decorated veteran is the commanding officer of Gamma Base, the U.S.

Army's top-secret weapons development facility.

A gruff old war-horse with little time or sympathy for the scientists under his command (whom he refers to as milksops). He distrusts anyone who doesn't come from a similar military background. Obsessed with capturing the Hulk™, General Ross will use anything at his disposal—including weapons created by Bruce Banner—to achieve his goal.

RICK JONES

Dared by friends to drive into the desert surrounding Gamma Base, Rick is unaware

of the imminent detonation of Banner's G-bomb. He is saved by Banner, who takes the brunt of the ensuing explosion and the resulting blast of gamma radiation. As the only other person aware of Banner's terrifying secret, Rick feels obligated to help him whenever possible, and is the one person the Hulk™ can call a friend.

BETTY ROSS

Betty, the daughter of General "Thunderbolt" Ross™, is in love with Bruce Banner.

She lives within the confines of Gamma Base with her father, who is infuriated that his daughter is in love with a man he considers spineless. Although unaware of Banner's condition, Betty is the one person who can calm the Hulk™'s fury as Banner's memories momentarily shine through the Hulk™'s clouded mind.

THE LEADER THE

Once a simple worker within Gamma Base, the Leader was responsible for moving

gamma-irradiated waste between the laboratories and the base's reprocessing facility. An accident exposed him to incredible doses of gamma rays, transformed him into a genius, expanded his cranium, and turned his skin green. Now the LeaderTM is intent on conquering the world by creating a race of almost-indestructible Humanoids to carry out his evil will. He sees the HulkTM as a tool to help him achieve his goal.

TYRANNUSIM

Banished from the surface of the earth by the wizard Merlin several hundred years

ago. Tyrannus™ discovered the fabled fountain of youth. Now a despot of a highly advanced subterranean people, he seeks to return to the surface with his hordes to conquer the world. Only the threat of armed retaliation from the U.S. has given him cause for concern. In order to protect himself from military retribution, he plans to kidnap Betty Ross.

THE EXECUTIONER M

An immortal exiled from the fabled realms of Asgard, the Executioner™ is leading a

vast, technologically advanced army against a fortress city some time in the distant future. Extremely powerful and incredibly arrogant, he believes in the inevitability of his own victory. Known to his own troops as the Evil One, the Executioner™ cannot stand the thought of anyone possessing power equal to his own.

THE ABOMINATION!

An enemy spy has uncovered Banner's hidden cave, and the wealth of technological

advances that lie within; attempting to steal the secrets of Banner's gamma ray machine, the spy is bombarded by the largest dose of gamma radiation ever conceived, which changes him into a powerhouse of lethal strength—the Abomination. His goal: to destroy the Hulk and become the mightiest mortal on the face of the planet!

THE HULKIMS MOVES

Movement

You can move the Hulk in eight directions using the +Control Pad. The configuration of the +Control Pad can be changed in the Options Menu from horizontal to diagonal movement. Diagonal is the default.

Punches

The Hulk™ has a number of punch attacks, including the straight right-handed jab, a push attack, and the backhanded slap. The A Button activates each of these.

Jumps

To make the Hulk jump in the direction he is facing, press the Button.

Jump Attack

The Hulk™ can attack enemies that are assaulting him from the air. Just press jump (B Button) and attack (A Button) quickly.

Rage Attacks

Rage attacks are based on the player's Rage Gauge, the Green Meter at the bottom left of the screen. When the Rage button (R Button) is pressed, the relevant rage attack is performed based on the level of the Rage Gauge. After the attack, the gauge is reduced slightly. Rage attacks are as follows:

Two-handed thunderclap | Creates a shock wave around the Hulk, smashing enemies away

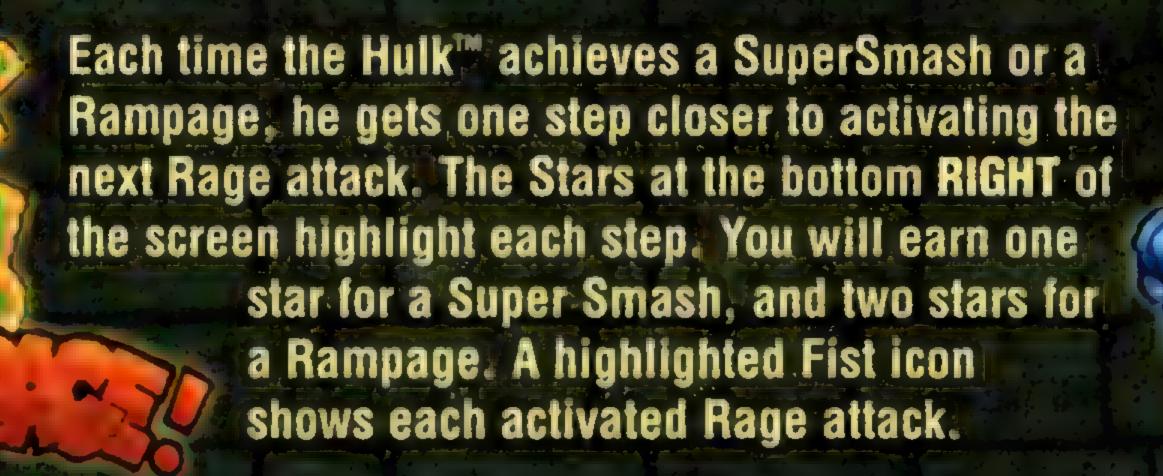

Overhead smash Equivalent to twice the damage caused by a standard punch attack

Jump smash. A more violent form of the extended vertical leap; the landing creates a more devastating shock wave that will smash anything at the point of impact

Rage Abilities

At the start of each level, the Hulk will only have the Barge ability (L. Button). As the Hulk progresses through the level, he will achieve the later Rage attacks according to the amount of destruction he causes.

Remember: Even if the Fist icon is active, it doesn't necessarily mean that the Hulk can perform the move. Check out the Rage meter to make sure that the Hulk 's rage is at a high enough level to perform the move.

Hint: The Hulk 's rage increases the more damage he does, and also when he gets damaged himself.

Missile Attacks

If you want the Hulk to pick up an object facing him, press the A Button. To throw the object, press the A Button again.

Power-ups

Rage and Health power-ups can be found throughout the Hulk™ inside destructible objects, such as soda machines and buildings.

The Hulk M's Health

The Pause Menu

The Pause screen can be activated at any time during the game by pressing SELECT, which brings you back to the title screen. Options allow you to resume play and toggle music and sound on or off. You can also Quit the game from the Pause Menu.

Saving and Loading Game Data

Choose a New Game from the Main Menu. Then choose a slot that will be used to automatically save as you progress through the game. You can choose to write over previously saved games. You can also load saved games from the Main Menu by choosing Load Game and selecting the appropriate saved game from the available slots.

HULKMATCH

Between two and four players can use a Game Boy® Advance Game Link® Cable to compete simultaneously within the same environment. The goal of the game is to be the last player left alive by defeating the others in missile-based combat. The game will end when a player reaches the predetermined number of kills or is the last man standing.

Menu

After the Server player selects Multiplayer from the Main Menu, he will be shown the Multiplayer Menu.

The player can select from the following options:

Level Select from a variety of arenas:

Kills You can set the total kills needed to win the match to either 0 (the last

man standing wins), 5, or 10.

Start Starts the player entry screen.

The game is started when Start is highlighted on screen and the A Button is pressed.

Energy

The Hulk will have a preset level of energy at the start of the game. This will diminish as the player character is hit. Some objects will cause more damage than others.

Player Joining

Once the first player has started the game, additional players can then join the Hulk™ server. All Game Boy® Advance Game Link® Cables must be connected BEFORE turning the Game Boy® Advance system(s) on. All systems must be on before starting the game.
